SUMMARY

I am a Team Coach and full-stack developer. I combine a strong technical foundation with a people-focused approach and continuous improvement to help teams build better software. I currently work at Bilbomática, supporting a team at the Department of Social Rights of the Government of Navarre in modernising legacy applications to .NET 10 and React.

EXPERIENCE

Team Coach · Bilbomática

Mar 2025 — Present

Client: Dept. of Social Rights — Government of Navarre · Hybrid

Tech renewal project migrating legacy apps to .NET 10 and React. I coach the team, collaborate with the Product Owner on requirements and epics, help with UI design in Figma, handle deployments and support technical analysis.

.NET 10, React, Figma, SAlFe, Scrum, Jenkins

Developer · Cysnet

Feb 2019 — Jan 2024

Client: Clínica Universidad de Navarra · On-site

Full-stack development in the healthcare ecosystem: Salesforce ↔ legacy HIS integration through an InterSystems IRIS for Health-based bus, .NET Framework apps, React, FileMaker, Magnolia CMS and Oracle SQL.

InterSystems IRIS for Health, .NET Framework, React, Docker, Magnolia CMS, Oracle SQL

EDUCATION

Course: Building web applications with React

CampusMVP

Jun 2026

Course: Building web applications with Blazor and .NET

CampusMVP

Apr 2025

Higher Degree in Web Application Development (DAW)

CIP Estella, Navarre
Oct 2017 — Jan 2020

Higher Degree in Network Computer Systems Administration (ASIR)

CIP Estella, Navarre
Sep 2011 — Jun 2013

PROJECTS

Salesforce ↔ legacy HIS integration

Design and implementation of an InterSystems IRIS for Health-based integration bus to synchronise Salesforce with the legacy HIS at Clínica Universidad de Navarra.

Award-winning technical article for InterSystems

I participated in the second edition of the Spanish Technical Article Contest organized by InterSystems and was awarded third prize.

WinSetup — unattended installation of the programs I use on my machines

A set of PowerShell + winget scripts and a Windows XP-styled website to install my entire app setup silently. Scripts, package lists and the site are all generated together on each build.
